## County Sheriff's Department Officer Warns of Burglars

By Dan Wooldridge

Vacation time is when most burglars move into action against homeowners according to Officer Steve Koska of the Orange County Sheriff's Department.

Officer Koska lives in Mission Viejo and works in the El Toro, Mission Viejo, and Canyon areas for the Sheriff's office.

Officer Koska would like to alert local residents to a special program for vacationers. If the vacationer will inform the Sheriff's Department of the vacation period the local officers will periodically check the home.

Koska says it's important for the home to continue to look lived in. Newspapers, mail, milk, and general condition of the home are noted by the professional burglar.

Officer Koska and wife Charla are kept very busy around home these days with the presence of 17 month old Joey. Koska has been a Sheriff for three years and has lived in Mission Viejo since October.

Booklets offering advice have been made available by Sheriff Musick and Officer Koska at the RANCHO REPORTER office for residents interested. Koska concluded by saying, "I hope people realize we are here to help and serve them."

## EDITORIAL COMMENT:

### Odds And Ends . . .

By CARL E. VENSTROM  
Editor and Publisher

No burning editorial material around during this hot week in August. But some rather interesting, general information has crossed our desk.

#### DID YOU KNOW?

That joggers (people that are caught running sometime between sunrise and sundown) who lead sedentary lives should condition themselves slowly, says Dr. Roderick D. Farley, president of the Orange County Podiatry Assn.

Dr. Farley and Dr. Joyce also warn joggers to check their hearts. Your heart is a muscle too, and needs to be conditioned slowly.

+++

DID YOU KNOW that if you inform the Sheriff's office of your going on vacation that they will periodically check your home. Officer Steve Koska, of the Sheriff's office, stopped by our office the other day and gave us a lot of valuable information. Some of this material is presented on page one of this issue.

+++

DID YOU KNOW that as many as 600 undergraduate students at the University of California, Irvine are still seeking housing in the local community in preparation for the opening of the fall quarter. Anyone who can help should contact Robert W. Hayden at 833-6922 on the Irvine campus.

+++

DID YOU KNOW that the Orange County Branch of the American Cancer Society is appealing for volunteer drivers to transport cancer patients to and from crucial medical treatments. Call 838-0510 if you can help.

The latest report from Saddleback JC shows that 875 full time students are presently registered for the fall term. This enrollment figure shows the customers are here and that the Board of Trustees can forge ahead on staffing, building, and planning. The future is here, today.

### The Jones's -Toro's Golf Specialists

By Dan C. Wooldridge  
News Editor

A hobby that turned into a prospering business provides long hours of work for the Jones boys of El Toro.

Bill Jones, co-owner of the El Toro Golf Cart Specialists with his brother John, began repairing golf carts in his spare time. Much to Bill's surprise, the response of the Leisure World residents was so overwhelming that his younger brother John joined him full-time in the business.

The El Toro Golf Cart Specialists have been operating for five months from Bill's home at 23971 Larkwood, El Toro. According to Bill Jones, "our business is the only local shop fully prepared to deal with the problems of maintenance and sale of golf carts."

Golf Cart Specialists handle all types of repairs, welding, painting, body work, motor parts, repair of any DC motors, and are the exclusive dealers for the major cart dealers; Cushman, Turf Rider, Marketeer, and Electra

King Shoppers. The business is open from 8 a.m. to 6 p.m. Monday through Saturday.

Bill Jones and his wife of six years, Sandi have two major distractions around the house - their dog Dutchess and Bill's hydro-boat. The racing boat has been used by Bill four times and currently is scattered in pieces from Long Beach to El Toro.

John Paul Jones or Johnny to his friends is the co-partner in the El Toro Golf Cart Specialists. Johnny has lived in Southern California most of his life and has spent the last 10 years working with electrical motors. John lives on Larkwood in El Toro with his wife Molly and children, Julie 2½ months and Jenny, age 4.

The Jones' face the common problem of businessmen in the El Toro-Mission Viejo area - a lack of possible locations. Bill Jones said, "the nearest spot available was Fountain Valley, but it is necessary for our future growth to find

### Old-Timer Shoots OK To Gun Club

A goodly number of you have expressed a concern over a possible hazard from the location of the new Rod and Gun Club located at Moulton Parkway and Cralotta (nee Paseo de Valencia). The range points out toward the San Diego Freeway and the thought is that the projectiles could injure people traveling on the Freeway.

This club is limited to skeet and trap shooting using shot guns. We have been assured that the range of these pellets does not exceed 100 yards, with the freeway almost a mile away from the fireline, there is no need for concern from this activity.

The old-timer would welcome requests to investigate anything that they think would be of interest to the residents of the area.

## Ergometer Tests Cardiac Output In Leisure World Test

By Russ Dyer

**Editor's Note:** This is the second in a three part series about physiological research being done at Leisure World to improve the health of the aged.

Assembled in one corner of the instrument-packed laboratory is a contraption looking for all the world like the result of a strange mating between a bicycle and a scuba diving rig.

With this ergometer, as it is called, DeVries determines cardiac output, one of the four series of tests in his

program.

While pedaling the wheelless bike, the subject breathes into a mouthpiece connected by flexible tubing to a pair of electronic analyzers which determine the amount of carbon dioxide and oxygen being exhaled.

Heart rate is simultaneously measured by means of a device clipped to the subject's ear which sends impulses to a pen squiggling back and forth across a roll of graph paper issuing from a

recorder.

A similar recorder, connected to the breathing apparatus, presents a graphical picture of the subject's respiration rate.

Later, DeVries and his technicians analyze the data and by means of complicated formulas determine the amount of blood being pumped out of the heart with each beat.

FUGITIVE VISIONS is one of the four presentations on the program for the Ballet Alfresco at Irvine Bowl. Additional ballets to be performed are Grand Adagio from Paquita, Enchanted Toyshio, and Moods of Ancient Russia. Dancing here are the stars of Fugitive Visions, Hal O'Neal and Odile de Witte.

## Church of Cross Burns Organ Note

The first note-burning of its young life is scheduled shortly by the Laguna Hills Lutheran Church of the Cross. The occasion will celebrate final payment on the fine Allen organ which was installed in the new sanctuary a year ago prior to its Service of Entry. The Allen instrument was subsequently approved by the congregation and purchased.

Sermon theme in the August 25 worship will be titled, "When Worship is Meaningful", based on the text for the 11th Sunday after Trinity, written in Luke 18: 9-14. Assisting Rev. Vernon E. Kotter will be Mr. Raymond Carlson, member of the Church Council.

The choir, directed by Mr. Fred Pierce and

accompanied by Lillian Narveson, will sing Handel's anthem, "Holy art Thou." The offertory selection is to be sung by Mr. Gordon Regar, "A Prayer" by David Ginon.

Nehemiah, chapters 1 through 6, will be studied and discussed at the Bible Study on Wednesday evening at 7:30 p.m.
